**Subject:**

Notice regarding Intellectual Property Rights Protection.

All our products are protected by complete patent rights and trade secrets. When procuring our products, please be attentive and respect our company's intellectual property rights to ensure the safeguarding of your company's interests.

**Explanation:**

1. In 2007, our company entered the field of optoelectronics and semiconductor TFT-LCD ARRAY, CELL, photolithography, etching process equipment, and components. Since then, we have been engaged in research and development of glass, wafer handling, and storage solutions, employing innovative material characteristics through scientific experimentation. We provide customers with comprehensive technical support, diversified product manufacturing, and services. We have innovatively patented our results in various countries, including our home country, amassing over 218 patents to date, with continuous additions to protect our independently developed achievements.
2. However, similar products with comparable functions and appearances have recently surfaced in the market. Apart from concerns about varying quality and reliability, there is also a potential conflict with our intellectual property rights, including patents. To safeguard our and our customers' interests, we have engaged lawyers and professionals to investigate and gather evidence on these similar products. We kindly request our customers to be mindful and respectful of our related intellectual property rights during procurement processes to avoid any impact on your company's production, manufacturing, and delivery schedules.
